**STATEMENT REGARDING THE CONTENT  
OF THE DISKETTE UNDER 37 CFR 1.821(e)**

Commissioner for Patents  
Washington, D.C. 20231

Sir:

The content of the sequence listing information recorded in computer readable form submitted on June 11, 2001 is identical to the written sequence listing which was submitted on the same date.

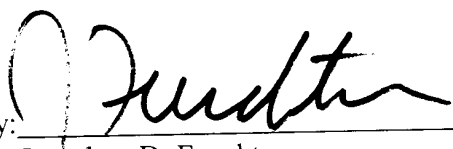

As noted in the Preliminary Amendment filed on June 11, 2001, the originally filed diskette containing the sequence listing information recorded in computer readable form was unreadable. The content of the originally diskette was identical to the originally filed written sequence listing.

However, the originally filed written sequence listing contained a typographical error. Correction of this error does *not* introduce new matter, since the sequence listing was correctly disclosed in FIG. 1 of the originally filed application.

The Examiner should contact the undersigned attorney if an interview would expedite prosecution.

Respectfully submitted,

**PIPER MARBURY RUDNICK & WOLFE**
